

MOLLY KANE

COMPUTING STUDENT SEEKING GRADUATE OPPORTUNITY

Offaly, Ireland | +353 87 289 9571 | mollyckanework@gmail.com | [linkedin.com/in/mollyckane](https://www.linkedin.com/in/mollyckane) | github.com/mollyckane

PROFILE

- Computer Science student completing a Higher Diploma (QQI Level 8) in Science in Computing (Software Development) at the National College of Ireland, graduating in August 2026. Strong results to date including: Algorithms & Advanced Programming (94%), Web Design & Client Side Scripting (94%), Software Development (92%), Data Structures (90%), Distributed Systems (80%).
- Hands-on experience building software in Java, JavaScript, MySQL, HTML and CSS, with growing focus on Python and active focus on object-oriented programming, debugging and data structures.
- Built projects across distributed systems, web applications and data visualisation, including a gRPC microservices system, full stack dashboard and a React expense tracker.
- Known for structured problem solving, calm troubleshooting and excellent attention to detail, backed by 3+ years in a fast-paced customer-facing role.
- Graduate roles especially desirable as I want to get my foot in the door, learn from experienced developers and contribute from day one in a team that values strong engineering and continuous improvement.
- **Availability:** August 2026 | Full-time | Irish Citizen | Native English speaker. Fluent Irish speaker.

TECHNOLOGY SKILLS

- **Languages:** JavaScript (Node.js, Next.js, React), Java, HTML, CSS, MySQL, Python (learning)
- **Backend:** Express.js, REST APIs, Server-Sent Events, asynchronous programming, modular service design
- **Distributed Systems:** gRPC, Protocol Buffers, all 4 RPC patterns, service discovery, real-time data pipelines, metadata and deadline handling
- **Software Engineering:** OOP, debugging, error handling, version control with Git and GitHub, Agile familiarity
- **Databases:** MySQL, data manipulation and security
- **Tools and Environments:** Linux, macOS, Windows, Railway, Figma, Adobe/Affinity Suite

PROJECTS

May-July 2026 | Fiadh – Artist Business Dashboard

Solo Project | NCI | github.com/mollyckane/fiadh

- Bilingual English/Irish full-stack business toolkit for freelance artists, including invoice generator, contract templates and income and expense tracking with Chart.js.
- Developed in Node.js and Express backend, connected to MySQL on Aiven, with JWT authentication and bcrypt password hashing.
- Interface design in accordance with WCAG 2.1 accessibility principles.

Apr-May 2026 | Smart Land Health Monitor

Solo Project | NCI | github.com/mollyckane/smart-land-monitor

- Environmental monitoring system using gRPC microservices in Node.js. Using unary, client streaming, server streaming and bidirectional RPC patterns.
- Defined service contracts with Protocol Buffers and used central naming service for discovery.
- Express.js GUI dashboard that streams live data to browser using SSE, with metadata, deadline handling and robust error handling.

Oct-Dec 2025 | Happy Paw Website

Group Project | NCI | brunkonjaa.github.io/Team-AB-Cosy-Corner

- 6-page responsive website for dog grooming business using HTML, CSS, JavaScript, Bootstrap and jQuery.
 - Gained practical experience in responsive layout, front-end debugging and implementing interactive UI elements.
-

EDUCATION

Sep 2025-Jul 2026 | National College of Ireland

H. Dip in Science in Computing (Software Development)

Module results to date: Software Development (92%), Web Design & Client Side Scripting (94%), Advanced Programming & Algorithms (94%), Computer Architecture, Operating Systems & Networks (91.5%), Databases (84%), Data Structure (90%), Distributed Systems (80%), Object Oriented Software Engineering (80%).

Sep 2021-May 2025 | TUS: Midwest (Clare St)

BA (Hons) Fine Art (Painting)

Modules: Painting, Lens Based Media, Critical Contextual Studies | Graduate with 1:1

2020 | Oaklands Community College

Leaving Certificate

Final Grades: Art H1, Irish H1, Music H2, English H2, Maths H4, French H2, Biology H2 | CAO Points: 555.

WORK EXPERIENCE

Aug 2022-May 2025 | Sports Direct (Childers Rd, Co Limerick & Edenderry, Co Offaly)

SALES ASSISTANT

- Served 200+ customers daily in fast-paced retail environment.
- Rectified customer issues, complaints and handled escalations calmly and professionally.
- Resolved 30+ POS technical issues monthly, significantly reducing downtime in rush hours.
- Trained 5+ new employees; trusted with admin system privileges.
- Executed stock-taking with 99% accuracy across 500+ SKUs and increased weekly sales on average by €200/week through strategic upselling.

May 2020-Aug 2020 | SuperValu (Enfield, Co Westmeath)

SALES ASSISTANT

- Assisted 100+ customers daily with general queries and shop information.
- Served on tills efficiently, professionally and greeted customers in a kind manner.
- Stocked the store according to business standards of front-facing merchandise to increase sales.

INTERESTS AND ACHIEVEMENTS

Class Representative:

- Assumed role of Class Representative for 2026 in NCI which involved advocating for a class of 26 year students.
- Voicing the opinions of the class and acting as a liaison between staff and students.
- Successfully reached agreement with students and academics on timetabling and exam queries raised by the class.

Art

- ♦ One painting selected and sold to Limerick City Gallery of Art for their permanent collection.
- Artist who enjoys creating artwork when the inspiration hits; digital painting, digital 3D artwork, video editing.
- Active member of Exhibition Society in TUS from 2022-2024.
- 2024: supported fundraising for the Simon Community and designed promotional materials for opening night of annual Fine Art Exhibition.
- 2025: co-organised standalone fundraising event for Painting class; designed tickets, advertised via social media, managed door on night. Funds raised contributed to the class artist catalogue publication.

Computing

- Installing and customising Linux desktop environments, theme creation for Waybar and Hyprland.
- Built and maintain creative sites: emsie-art.neocities.org
- Coding projects primarily in Node.js in my spare time.
